

PRESOAK

INTER POWER ACIDIC FLEET WASH

A cost effective, non-corrosive, low pH, presoak for frictionless truck wash systems. Used as the first step in a two step acid/alkaline wash process. Effective in cleaning aluminum and will help remove road film and brightens chrome and glass. Contains a pleasing "Lemon Scent."

INTER POWER TRUCK & TRANSIT WASH

A concentrated alkaline presoak ideal for removing tough road films, soils, and diesel/carbon residues that build up on fleet vehicles. Designed for automatic wash systems and compatible with water recycling systems. Can be used as a single step or as the second step in a two-step automated truck wash operation.
